GETTING YOUR APPLICATION KEYS.....	3
GETTING A MERCHANT TOKEN.....	6

Introduction

The purpose of this user's manual is to show where to take the data necessary to set up account in our Amazon Link.

Getting your application keys

To use Amazon integration properly, you need to have the **Amazon Merchant** (we suppose you have it) and **AMWS** (merchant web services) accounts. The access details should be saved in Amazon **Config** section of the Admin Panel.

If you don't have **Amazon Merchant account**, please create it by following one of the links below (depending on your country):

- UK: <http://services.amazon.co.uk/services/sell-on-amazon/how-it-works>
- USA: <http://www.amazonservices.com/content/sell-on-amazon.htm>
- DE: <http://services.amazon.de/programme/verkaufen-bei-amazon/preisgestaltung/>
- FR: <http://services.amazon.fr/services/vendre-sur-amazon/avantages/>
- IT: <http://services.amazon.it/servizi/vendita-su-amazon/caratteristiche-e-vantaggi/>
- ES: <http://services.amazon.es/servicios/vender-en-amazon/caracteristicas-y-ventajas/>

1. To use **Amazon MWS**, you must have an **Amazon MWS-eligible Seller** account and you must register as an “Amazon MWS Developer” at one of the following sites:

- CA: <http://developer.amazonservices.ca>
- DE: <http://developer.amazonservices.de>
- FR: <http://developer.amazonservices.fr>
- JP: <http://developer.amazonservices.jp>
- UK: <http://developer.amazonservices.co.uk>
- US: <http://developer.amazonservices.com>

Amazon Marketplace Web Service (Amazon MWS)

Amazon Marketplace Web Service (Amazon MWS) is an integrated Web service API that helps Amazon sellers to programmatically exchange data on listings, orders, payments, reports, and more. XML data integration with Amazon enables higher levels of selling automation, which helps sellers grow their business. By using Amazon MWS, sellers can increase selling efficiency, reduce labour requirements, and improve response time to customers.

Amazon MWS supports seller API functions that are broader in scope and functionality than any API functionality previously offered to sellers by Amazon. With Amazon MWS, Amazon listing, order, and payment data can be integrated into existing workflows so that selling on Amazon fits seamlessly with sellers' current business practices.

The Amazon Marketplace Web Service (Amazon MWS)

2. There are three options available when you sign up to use Amazon MWS.

Select the following one:

- ***I want to access my own Amazon seller account with MWS.***

Select this option when you sign up to use Amazon MWS for your own Amazon seller account, Amazon MWS will assign a developer account identifier to you. When you make Amazon MWS requests, you'll use the developer account credentials that are associated with your developer account, plus the Merchant ID for your seller account.

Greetings Vladislav Koshelev (Not V...?)

Amazon Marketplace Web Service (Amazon MWS)

I want to access my own Amazon seller account with MWS.

I want to use an application to access my Amazon seller account with MWS.

Application Name:

Application's Developer Account Number: For example: 1234-1234-1234 or 123412341234

I want to give a developer access to my Amazon seller account with MWS.

Developer's Name:

Developer Account Number: For example: 1234-1234-1234 or 123412341234

Next

3. On the opened registration summary page, you'll get the following details:

- **XML Merchant ID**
- **Marketplace ID**
- **Account Number**
- **Access Key ID**
- **Secret Access Key**

Amazon Marketplace Web Service (Amazon MWS)

Congratulations!

You can now access your Amazon Seller account with MWS

These are your Account Identifiers and Credentials, which you will need to make successful MWS requests.

Important: Please do not navigate away from this page until you have made note of these Account Identifiers and Credentials or have printed this page. These Account Identifiers and Credentials will not be emailed to you.

Seller account identifiers for Test Store	
Merchant ID:	A1.....6
Marketplace ID:	A1.....7P

Developer account identifier and credentials for developer account number 0F.....29*	
AWS Access Key ID:	AKI.....WQA
Secret Key:	NEM.....IC9

*If you are developing MWS Applications or otherwise providing MWS-related development services to other sellers, you will need to provide this developer account number to those sellers so that they can authorise you to access their Amazon seller accounts with MWS.

Copy the data from **XML Merchant ID, Marketplace ID, Account Number, Access Key ID, Secret Access Key** - we will need it to set up the profile in the Amazon Link.

Getting a Merchant token

1. To get your Merchant Token, please login to your *Seller Central* account:

- USA: <https://sellercentral.amazon.com>
- EU: <https://sellercentral-europe.amazon.com/>

or for each particular country:

- DE: <https://sellercentral.amazon.de/gp/homepage.html>
- FR: <https://sellercentral.amazon.fr>
- IT: <https://sellercentral.amazon.it>

2. Navigate to *Settings* > *Account info* page:

The screenshot shows the Amazon Seller Central interface for a merchant named 'Holbi'. The browser address bar indicates the URL: <https://sellercentral.amazon.co.uk/gp/homepage.html?ie=UTF8&%2AVersion%2A=1>. The navigation menu includes INVENTORY, ORDERS, STOREFRONT, REPORTS, PERFORMANCE, and SETTINGS. The 'SETTINGS' dropdown is open, with 'Account Info' selected. The main content area features a yellow alert box with a warning icon: 'Alerts (2) You have 3 orders at risk for cancellation! You have not confirmed shipment of these orders and the confirmed after 30 days. Manage these orders. You have an unverified email address. We currently have address approval page to fix this.' Below the alert is a 'Your Orders (Amazon.co.uk)' summary showing 0 orders in the last day, 0 in the last 7 days, 0 pending, and 3 unshipped. A 'View your Orders' button is present. The 'Headlines' section contains two news items: 'Payments Update: New "Payable to Amazon" Feature' dated 14 Mar 2012, and 'Incorrect information on the Toys detail page on Amazon.co.uk' dated 12 Mar 2012.

3. You will see *Your Merchant Token* at the bottom of the page:

Charge Method	
Payment Method:	None (click Add button to set)

Your Merchant Token	
Your Merchant Token	M_.....04

4. Email us *Your Merchant Token* together with *XML Merchant ID*, *Marketplace ID*, *Account Number*, *Access Key ID* and *Secret Access Key*.
